KACHLOVÝ PROGRAM

Mehr als 80 000 begeisterte
BIOFIRE-Besitzer wissen die
Vorzüge und die Qualität des
BIOFIRE-Kachelofens zu schätzen.

Die Nr.1 zu sein ist für uns
Auftrag, dass BIOFIRE auch in
Zukunft die schönste,
gesündeste und umweltfreundlichste
Art zu heizen ist.

Unsere laufende Forschungs- und
Entwicklungsarbeit, in
Zusammenarbeit mit der TU Wien
und der TU Klausenburg,
ermöglicht uns, in Heiztechnik und
Ökologie, aber auch im Bereich der
Produktion, immer einen Schritt
voraus zu sein.

Individualität erfordert Flexibilität.
In unserer Keramikproduktion
werden Kundenwünsche von der
Idee, über das Design bis zum
Modellbau, konsequent und
schnell realisiert.
Die Kachelteile werden aus
hochwertigen Tonen gegossen,
mit viel Geschick sorgfältig von
Hand bearbeitet, glasiert und
jeder Ofen separat gebrannt.

Auch die Metallteile kommen aus
der eigenen BIOFIRE Produktion.
Nur so ist es möglich, Ideen zur
Zufriedenheit unserer Kunden,
schnell umzusetzen.
